LILLIAN AUGUST

FINE FURNITURE

Are you using our “ASKFAB” Automated Customer Service?

Complete Fabric Information Only a Phone Call Away

Weekends, Holidays, anytime you need up to date fabric information.

Is this fabric in stock?

How is the fabric applied?

What is the grade of this fabric?

Is this fabric discontinued?

Our automated customer service can answer all these questions allowing you to give prompt answers to your customers' questions 24 Hours a day...

1-800-2-ASKFAB

Refer to our semi-annual Fabric Book for the above information as well as the Code/SKU

Number Listed in Italics after each fabric color as below....

Brown S13 – 35472

And is listed under the Larger Bar-code on every swatch...

014355

GENERAL INFORMATION

- (1) **RAFT:** It has been determined by the Joint Industry Fabric Standards Committee that various fabric treatment processes are detrimental to the performance of fabrics. Therefore, Lillian August Fine Furniture nor the fabric mill can be responsible for any claims made involving fabrics that have Retail Applied Fabric Treatment.
- (2) **The manufacturers of upholstered fabrics do not guarantee their products for wearability or colorfastness, whether “Teflon” treated or not; therefore, we cannot assume this responsibility. We also cannot guarantee match in color of items ordered at separate times due to dye lot variations.**
- (3) We do not in any way guarantee that Teflon finish will definitely improve the cleaning quality of fabrics.
- (4) We buy the best quality covers available in each grade, consistent with present day styling and cannot guarantee fabric for cleanability, fastness of color, or wearing quality.
- (5) Fabric swatches are arranged by market introductions.
{Fabric enclosed with Brackets indicates new fabrics added at October Market.
- (6) **This fabric list contains the following pertinent information:** Fabric Name, Grade, Color, Swatch Handle and Sequence, SKU Number, Fabric Content, Cleaning Code, Repeat, and fabrics that are Railroaded are so noted.
- (7) All current fabrics are 54 inches wide unless otherwise noted
- (8) When “Railroaded” is noted on the list, this denotes that the fabric is shown railroaded in swatches and on furniture.
- (9) **Fabrics Railroaded are not recommended for draperies.**

Cleaning Code Information

The following recommended cleaning codes are devised as a result of tests made by the fabric manufacturers having adhered to the Joint Industry Standards Committee. They in no way intend to imply that we are in any way guaranteeing these fabrics or the cleanability thereof.

“W”

Clean this fabric with the foam only of a water-based cleaning agent to remove overall soil. Many household cleaning solvents are harmful to the color and life of the fabric. Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, light brushing to remove dust and grime is recommended.

“S”

Clean this fabric with pure solvents (petroleum distillate-based products, Energine, Carbona or similar products may be used) in a well ventilated room. Cleaning by a professional furniture cleaning service only is recommended. Caution: Water stains may become permanent and unable to be removed with solvent cleaning agents. Avoid products containing Carbon Tetrachloride, as it is highly toxic. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

“SW”

Clean this fabric with the foam only of a water-based cleaning agent or with a pure solvent in a well ventilated room (petroleum distillate-based products, Energine, Carbona or similar products may be used). Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

“X”

Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust or grime. Water-based foam or solvent based cleaning agents of any kind may cause excessive shrinking or fading. The recommended cleaning codes for each fabric appear in the fabric list.

Leather R-factor (Resistance/Serviceability)

R-1 Minimal Resistance = Luxurious, designed for fashion and style. Includes such types as Nubuck and Suede.

R-2 Natural Resistance = The most elegant of leathers, typically pure or naked. These will typically gain a patina over time.

R-3 Standard Resistance = Impervious to most spills and stains, easy to clean, best for residential serviceability requirements.

R-4 Maximum Resistance = Impervious to spills and stains, very easily cleaned, best for heavy-duty or commercial requirements.

Lillian August will not guarantee dye lot match on items ordered at separate time due to dye lot variations between shipments from the tanneries. Because leather is a natural product, grain and color may vary from hide to hide.

Tannery's Description of Leathers Offered by Lillian August

Abingdon – A luxurious suede from the finest suede tannery in Europe located in Valencia, Spain. Abingdon has a beautiful, luxurious nap and the warm, moist feel of “real suede” that provides a beautiful tracking effect. A specific tanning process waterproofs the suede in the drum from face to front for better and easier maintainability. A unique transfer process is applied to the leather with heat and pressure to create this exotic, Moccasin texture while still maintaining the beautiful properties of the suede. Hides will average 16-18 sq.ft., but the center cut of this suede creates a uniform, consistent cutting yield.

Ashbury – A new full aniline leather from Italy that provides a tremendously soft tannage that is the essence of aniline leather. Beautiful Northern European hides are selected to provide a leather that offers stunning tactile qualities that rival any of the famous European anilines in the Market. Ashbury is milled extensively to produce a graceful, draping effect that allows the leather to tailor well on intricate upholstery applications.

Bromly – A medium weight pure aniline crust. We start by adding the desired color with waxes, oils and seals to give our Bromly a base to start with. Once the first application is dry, expert craftsmen can build-up the finish to achieve a rich patina that is very much desired by the consumer. The final step is to apply a wax on top for protection and feel. Our labor intensive hand-wipe evokes classic appeal with the ability to use and add to the unique finish we have started. Please dust regularly and clean with a damp cloth. This product will fade if exposed to sunlight for a prolonged period of time.

Cheshire – Drum dyed leather that is finished with an ironing process. This finishing process gives the leather a natural sheen. The leather has a water and stain repellent in the tanning process. This gives the leather protection while still allowing the leather to wear naturally over a period of time. Spills should be cleaned immediately with a damp cloth. This leather will fade if exposed to sunlight for a prolonged period of time.

Devon – A medium weight to grain leather with a soft glaze finish. The finish provides protection and enriches the brilliancy of each color. Hours of tumbling gives a soft hand to glossed leather. A damp cloth is recommended for cleaning.

Gorran - These hides are dyed for color then a wax is added to give the leather an aged, used appearance. Next a clear water based topcoat is added to give the leather luster. This top grain European leather is great for any furniture style. The wax is the final step that gives Gorran the ability to break and ages over the years. A light clear coat is applied to the surface for added protection. Natures marking are apparent throughout every hide and should be appreciated. (Healed scars scratches, neck and belly wrinkles.) Prolonged exposure to sunlight will fade Gorran. Crackles are guaranteed to be in leather: patchy with dark and light areas, color variances.

Inspiration - Designed in Italy on native raw material, Inspiration is one of our newest semi aniline collections. Available in an extensive color palette that includes soft neutrals as well as bright colors, it is marked by a silky smooth and drapery hand that exudes a more modern aesthetic. Offering color consistency throughout the hides, it is ideal for high traffic applications.

Oxford – This is a great new crocodile embossing with colors that provides more traditional, modern appeal. The Oxford pattern has a deeper embossing that penetrates the hide to give the pattern the raised texture of the real alligator. The tips are then hand burnished in the tannery to create that rich, tonal effect that gives this article so much character.

Sauvage - Sauvage is a full grain aniline leather tanned in a historic leather producing region of Italy using English hides.

The century old tannery prepares this leather article by applying a hot wax, then turning the hides in old wooden tanning drums overnight to soften the natural fibers and impart it with a remarkable suppleness. The leather is then upholstered in its "crust form" on the furniture in Hickory, N.C. After the furniture is made our leather artisans apply a multi-step hand rubbed Patina using the same waxes and pigments used in Italy. Performing this process on the actual finished piece allows our artisans to develop a unique Patina, composition, and overall essence that creates a piece of furniture that has uniqueness, character, and style that matches the individual who's selecting it...

Sauvage imparts the feeling of a softer, well broken in leather one might find on a decades old chair discovered in a French country estate or the Parisian flea market. The leather is brand new from our Artisans hands.... without the aging issues that sometimes come from the hands of time.... Truly a unique, hand-made article in an era when only companies committed to the highest standards lavish this sort of attention and time to unique American made furniture.

Solport – Solport is a leather with timeless appeal. These hides are dyed for color then a wax is added to give the leather an aged used appearance. Then these hides are polished to enhance the aged appearance. Solport hides have a soft supple hand that will get better with use. This top grain European leather is great for any furniture style. Nature's markings are apparent throughout every hide and should be appreciated. (Healed scars scratches, neck and belly wrinkles.) Prolonged exposure to sunlight will fade Solport.

Surrey – A luxurious suede from the finest suede tannery in Europe located in Valencia, Spain. Surrey has a beautiful, luxurious nap and warm moist feel of "real suede" that provides a beautiful tracking effect. A specific tanning process waterproofs the suede in the drum from face to front for better and easier maintainability. Hides will average 16-18 sq.ft., but the center cut of this suede creates a uniform, consistent cutting yield.

Wiltshire – Wiltshire is produced on English bull hides and tanned by Italy by fifth-generation tanner. Wiltshire has a unique, soft oil tannage and a paraffin top to provide a clear, transparent surface. This leather also has a vibrant pull-up effect and is unique in that it maintains its luster when pulled in tight areas of the frame. The soft tannage allows Wiltshire to be easily tailored with such applications as pleating and tufting, and thus can be used on a broad range of frames. This leather will continue to burnish and polish over time, and wear will continue to enhance its appearance. Wiltshire's visual appeal combined with its soft, supple hand makes it a leather to notice.
