

LILLIAN AUGUST

FINE FURNITURE

FABRIC CATALOG

SEPTEMBER 2020

GENERAL INFORMATION

- (1) **RAFT:** It has been determined by the Joint Industry Fabric Standards Committee that various fabric treatment processes are detrimental to the performance of fabrics. Therefore, Lillian August Fine Furniture nor the fabric mill can be responsible for any claims made involving fabrics that have Retail Applied Fabric Treatment.
- (2) **The manufacturers of upholstered fabrics do not guarantee their products for wearability or colorfastness, whether “Teflon” treated or not; therefore, we cannot assume this responsibility. We also cannot guarantee match in color of items ordered at separate times due to dye lot variations.**
- (3) We do not in any way guarantee that Teflon finish will definitely improve the cleaning quality of fabrics.
- (4) We buy the best quality covers available in each grade, consistent with present day styling and cannot guarantee fabric for cleanability, fastness of color, or wearing quality.
- (5) Fabric swatches are arranged by market introductions.
{Fabric enclosed with Brackets indicates new fabrics added at October Market.
- (6) **This fabric list contains the following pertinent information:** Fabric Name, Grade, Color, Swatch Handle and Sequence, SKU Number, Fabric Content, Cleaning Code, Repeat, and fabrics that are Railroaded are so noted.
- (7) All current fabrics are 54 inches wide unless otherwise noted
- (8) When “Railroaded” is noted on the list, this denotes that the fabric is shown railroaded in swatches and on furniture.
- (9) **Fabrics Railroaded are not recommended for draperies.**

Cleaning Code Information

The following recommended cleaning codes are devised as a result of tests made by the fabric manufacturers having adhered to the Joint Industry Standards Committee. They in no way intend to imply that we are in any way guaranteeing these fabrics or the cleanability thereof.

“W”

Clean this fabric with the foam only of a water-based cleaning agent to remove overall soil. Many household cleaning solvents are harmful to the color and life of the fabric. Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, light brushing to remove dust and grime is recommended.

“S”

Clean this fabric with pure solvents (petroleum distillate-based products, Energine, Carbona or similar products may be used) in a well ventilated room. Cleaning by a professional furniture cleaning service only is recommended. Caution: Water stains may become permanent and unable to be removed with solvent cleaning agents. Avoid products containing Carbon Tetrachloride, as it is highly toxic. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

“SW”

Clean this fabric with the foam only of a water-based cleaning agent or with a pure solvent in a well ventilated room (petroleum distillate-based products, Energine, Carbona or similar products may be used). Cleaning by a professional furniture cleaning service only is recommended. To prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended.

“X”

Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust or grime. Water-based foam or solvent based cleaning agents of any kind may cause excessive shrinking or fading. The recommended cleaning codes for each fabric appear in the fabric list.

FAMILY ROOM SELECT FABRICS

Identified with a  in the fabric book and yellow corner label on the swatch. 

“Family Room Select Fabrics”- a collection of performance fabrics procured from the leading suppliers of residential upholstery fabrics. Each fabric in this collection is manufactured using a variety of proven “enhanced performance technologies”. This produces fabrics with improved durability and superior protection against stains and spills, making them the preferred choice for the family room in your home.

Leather R-factor (Resistance/Serviceability)

R-1 Minimal Resistance = Luxurious, designed for fashion and style. Includes such types as Nubuck and Suede.

R-2 Natural Resistance = The most elegant of leathers, typically pure or naked. These will typically gain a patina over time.

R-3 Standard Resistance = Impervious to most spills and stains, easy to clean, best for residential serviceability requirements.

R-4 Maximum Resistance = Impervious to spills and stains, very easily cleaned, best for heavy-duty or commercial requirements.

Lillian August will not guarantee dye lot match on items ordered at separate times due to dye lot variations between shipments from the tanneries. Because leather is a natural product, grain and color may vary from hide to hide.

Tannery's Description of Leathers Offered by Lillian August

Devon – A medium weight to grain leather with a soft glaze finish. The finish provides protection and enriches the brilliancy of each color. Hours of tumbling gives a soft hand to glossed leather. A damp cloth is recommended for cleaning.

Gourmet – A leather produced on English bull hides and tanned in Italy by fifth-generation tanners. Gourmet has a unique, soft oil tannage and a paraffin top to provide a clear, transparent surface. This leather also has a vibrant pull-up effect and is unique in that it maintains its luster when pulled in tight areas of the frame. The soft tannage allows Gourmet to be easily tailored with such applications as pleating and tufting and thus can be used on a broad range of frames. This leather will continue to burnish and polish over time, and wear will continue to enhance its appearance. Gourmet's visual appeal combined with its soft, supple hand make it a leather to notice.

Inspiration – Designed in Italy on native raw material, Inspiration is one of our newest semi aniline collections. Available in an extensive color palette that includes soft neutrals as well as bright colors, it is marked by a silky smooth and drapery hand that exudes a more modern aesthetic. Offering color consistency throughout the hides, it is ideal for high traffic applications.

Panhandle – is a leather that offers a soft supple feel with a double grain tipping. With a clear clean color pallet, Panhandle is a great addition to your leather offering and fits the contemporary furniture styles of today's market. To make Panhandle, we use large hides. The tannage for Panhandle is an apparel tannage that sets the stage for this soft supple leather. After tanning, this full top grain leather is finished using an apparel finishing method. This method is what sets Panhandle apart from the rest of the leathers. Panhandle is great for family rooms and areas with daily use.

Sauvage – Sauvage is a full grain aniline leather tanned in a historic leather producing region of Italy using English hides.

The century old tannery prepares this leather article by applying a hot wax, then turning the hides in old wooden tanning drums overnight to soften the natural fibers and impart it with a remarkable suppleness. The leather is then upholstered in its "crust form" on the furniture in Hickory, N.C. After the furniture is made our leather artisans apply a multi-step hand rubbed Patina using the same waxes and pigments used in Italy. Performing this process on the actual finished piece allows our artisans to develop a unique Patina, composition, and overall essence that creates a piece of furniture that has uniqueness, character, and style that matches the individual who's selecting it... Sauvage imparts the feeling of a softer, well broken in leather one might find on a decades old chair discovered in a French country estate or the Parisian flea market. The leather is brand new from our Artisans hands.... without the aging issues that sometimes come from the hands of time.... Truly a unique, hand-made article in an era when only companies committed to the highest standards lavish this sort of attention and time to unique American made furniture.
